

# MRI Extra Wide Core Cart

## 51731

### MRI Storage, Built for Speed and Space

In MRI suites where space and safety are non-negotiable, this cart delivers full utility with zero ferrous risk. Made from non-metal HDPE, it features an extra-wide top, full-extension drawers, and bulk storage behind a PETG sliding door. Smooth MRI-conditional casters and chemical resistance ensure it moves quietly and cleans easily—keeping critical gear close and the environment compliant.

### EXTRA-WIDE WORK SURFACE WITH HANDLES

- Provides more staging area and built-in grab points for easier maneuvering in tight spaces

### MRI-CONDITIONAL NON-METAL CONSTRUCTION

- 99.4 % Zero metal construction by mass. Zero ferrous metals.

### LIFETIME GUARANTEE

- Work stress-free, knowing your cart is covered for life.

### THREE 3/4-EXTENSION DRAWERS

- Three spacious drawers with non-metal drawer slides

### SPACIOUS BULK STORAGE WITH SLIDING DOOR

- Secure large items like linens or backup gear behind a clear PETG door to maintain visibility

### EXTRA-WIDE WORK SURFACE WITH HANDLES

- Provides more staging area and built-in grab points for easier maneuvering in tight spaces

### QUIET OPERATION

- Designed to avoid rattles or squeaks—so cart movement doesn't disturb patients or imaging sequences
