High-Capacity Mobile Workbench for Clinical MRI Suites

In a fast-moving MRI suite, where space is tight and every second matters, MRI technologists need a workstation that keeps up with their rhythm. The TrippNT MRI Cayman Lab Island delivers MRI-safe mobility and organized storage right where it's needed most. Built from non-ferrous HDPE and designed for smooth movement in narrow corridors, it provides a stable surface for staging and swapping coils, managing linens, and keeping small consumables within easy reach. With its compact footprint, roll-top access, and easy-clean surfaces, it helps technologists maintain focus, safety, and flow – even on the busiest scan days.

100% MRI-CONDITIONAL MATERIALS

- 99.4% Non-Metal construction. Zero ferrous metals.

DURABLE, CHEMICAL-RESISTANT SURFACES

- HDPE construction resists stains, disinfectants, and daily wear, preserving aesthetics.

LIFETIME GUARANTEE

- Work stress-free, knowing your cart is covered for life.

ASK ABOUT OUR DEMO PROGRAM

Try it out at your facility.

LOCKING MECHANISM FOR SECURITY

- Integrated lock ensures spare linens, coils, or sensitive supplies stay in place when unattended.

INTERNAL STATIONARY SHELF

- Keeps frequently used items within reach without needing to dig.

SLIDING TAMBOR DOOR

- Secures gear with a roll-up door that disappears when open—no swinging panels in tight space.

SMOOTH, LARGE CASTER

- 5" twin-wheel casters (2 locking, 2 swivel) provide easy gliding over scan room floors.

10991 N Airworld Drive, Kansas City, MO, USA | 1 (800) 874-7768 | Sales@TrippNT.com
