

Companion Cart

53981

Adaptable. Mobile. Hospital Grade Plastic.

Every lab professional wants a workspace that adapts as quickly as their workflow. But traditional fixed-height carts limit flexibility and can slow down data entry, analysis, and collaboration. That lack of adaptability can lead to frustration—and even discomfort—during long days at the bench. The Lab Grade Height Adjustable Companion Cart solves this with one-handed pneumatic height control, smooth mobility, and a durable, cleanable HDPE surface. It's the perfect balance of comfort, functionality, and reliability—so your team can stay focused on results, not workspace limitations.

ADJUSTABLE ERGONOMICS

- One-handed pneumatic height control transitions from sitting (28.54") to standing (42.52").
- Encourages better posture and comfort during extended use.

LAB-GRADE CONSTRUCTION

- HDPE top resists stains, chemicals, and moisture for long-term performance.
- Smooth, nonporous surface supports frequent cleaning and disinfection.

Lab Grade Top

- Resistant to chemicals
- Built in Handles
- Velcro strap to secure equipment when moving..

Smooth Mobility

- Open base for easy movement
- 2 locking casters

Ergonomic lever

- Smooth, pneumatic lift control lets users switch from sitting to standing with one hand.
